Session 6

Recommendations in view of H2020 ERA-NET Programming

Break Out

European Research Area

Session Objective

- To give recommendations with regard topic selection, objectives and operation of P2P initiatives and to coordination, harmonization and coherence in addressing the European bioeconomy and ERA strategic goals.
- ERA-NET instrument under Horizon 2020 is a must-know for many of us. If so for you, and you did not join the Commission Infoday on January 16 or a national information session, or if you did but need to refresh your memory, note that the webstreaming is still online, together with all presentations <http://ec.europa.eu/research/era/era-net-cofund-h2020-infoday2014.htm>. This will answer a lot of question, but there may still be open questions. The session gives a chance to ask them.
- This session will give input to writing the scene-setting introductory section of the PLATFORM Vision and Roadmap, a key document to be delivered by the project in September 2014.

Questions

4 groups, each group discusses these questions:

1 On flip-over, answer per person:
